

Not sure if you are ready for permanent eyebrows? One CARF member shares her technique for a temporary solution.

**Step 1:** After applying makeup clean the eyebrow area with a Q-TIP.

**Step 2:** Using a darker shade of Sephora brand waterproof eyebrow pencil draw random "eyebrow hairs."

**Step 3:** Use a lighter shade of Sephora brand waterproof eyebrow pencil to fill in eyebrows gaps.

**Step 4:** To achieve natural looking eyebrows use the other end of the Sephora eyebrow pencil remove any clumps or lines. Despite being labeled waterproof it will come off when rubbed while sweating.
